Bemoni Engineering and Construction

ავაშენებთ!

Bemoni.com

- "Bemoni" was established in 2017. It was specialized in consulting, engineering and design project activities.
- During the years 2017-2022, projects worth a total of $5 million were successfully implemented.
- In the second half of 2022, Bemoni underwent rebranding, changed its development strategy and became an energy infrastructure construction company, which also continues its original activities.

Bemoni Founder and Managing Director

Giorgi Mirtskhulava

- 25 years of working experience in energy, oil, gas and construction fields.
- 14 years of experience in the position of Executive Manager. For 10 years, he held the position of Executive Vice President in the direction of corporate development and asset management at Tethys Petroleum Limited, an oil and gas producing company.
- In addition to working on several multi-million-dollar projects, he and his team have raised more than $400 million worth of investment capital from global investors.
- After returning to Georgia in 2017, he led the construction management team in the construction process of the Anaklia deepwater port with a budget of $600 million.
- Currently, he is focused on the development of Bemoni, which has the ambition to become a leader in the field of construction, engineering and design in Georgia. Also, he is the founder and shareholder of several companies.

Bemoni unites the
best specialists in
their respective
fields in Georgia.

Bemoni Team

Bemoni's team is distinguished by many years of expertise and accumulated experience in its field. Team members have participated in both Georgian and international mega projects. Among the team are:

- **Vakhtang Tskhvariashvili** - **Technical Director for Construction** - 25 years of work experience in the direction of civil and hydroengineering. In 2018-2022, Vakhtang Tskhvariashvili, as the deputy technical director of the company "Energoni", was involved in the rehabilitation project of Enguri HPP, the construction of Mtkvari HPP and other projects, the total value of which was several hundred million euros.

- **Teimuraz Nikolashvili** - **Technical Director for Energy** - With more than 20 years of work experience, in 2021 he was actively involved in the fourth phase of the Enguri HPP rehabilitation project, within the framework of which the rehabilitation of the electrical and hydromechanical part of the Enguri HPP, the construction and rehabilitation works of the cross-arch dam and the derivation tunnel were carried out.

- **Nika Seskuria** – **Chief Financial Officer** - 8 years of work experience in both public and private sectors. He held various positions in state organizations, in the banking sector, in auditing companies and in the direction of managing startups. In 2020-2022, he was the head of the financial processes and risk management department of the state program "Produce in Georgia", within which he annually managed the state budget of up to 300 million GEL. In the same program, he also worked in the direction of digital transformation.

Bemoni Team

- **Natia Mariamidze** - **Head of Administration and HR** - 10 years of work experience in administrative, communications and human resources management. In 2017-2020, she worked in the Anaklia Development Consortium, in the administrative department, within the framework of which she was actively involved in the $3 billion project of the construction of the deep-water port of Anaklia.

- **Giorgi Topuria** – **Corporate Safety and Social Liability Director** - 20 years of work experience, including monitoring and corporate security areas. He also worked in the Ministry of Environment and Natural Resources Protection, where he was the head of the environmental supervision department in the Samegrelo-Zemo Svaneti region.

- **Ani Tavelishvili** – **Chief Project Coordinator** - 15 years of work experience in the administrative aspect of construction and rehabilitation projects in the field of energy. In 2013-2022, Ani was the coordinator of the following projects: Mtkvari HPP construction project, electrical and hydromechanical works of Enguri HPP, rehabilitation of access road to Enguri HPP, project of rehabilitation works of Enguri HPP pressure tunnel, water intake, access shafts, drainage tunnel and vehicle tunnel.

Our goal is to
build with the
Highest Quality!

Working Areas

High Voltage Transmission Lines

High Voltage Substations

Hydroelectric Power Plants

Thermal Power Plants

Solar Power Plants

Wind Power Plants

- Our value is construction and engineering projects executed with the maximum precision, highest standards and professionalism.

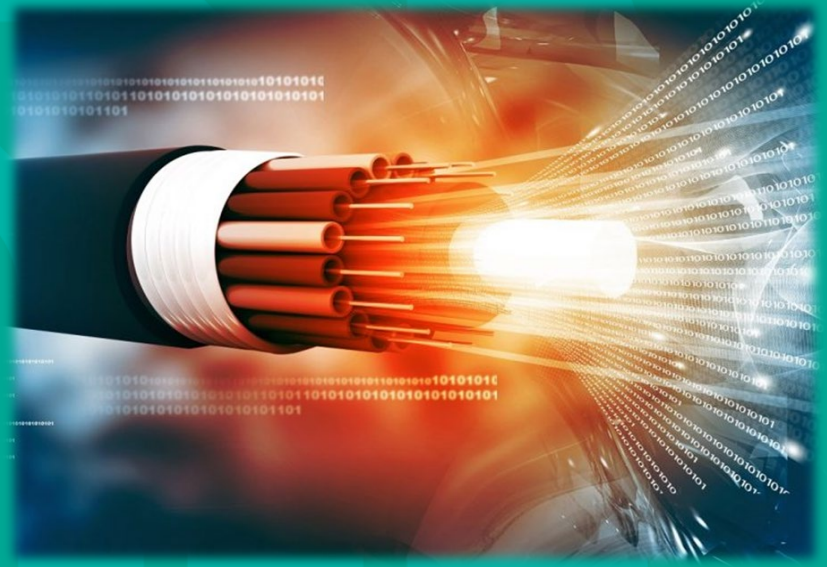
- Bemoni is currently realizing projects with a total value of $60 million.

Completed and Ongoing Projects

Supply and Installation of AT 3-2 Autotransformers in Substation "Gardabani-500"

Construction of "Kasleti 1" Hydroelectric Power Plant

Construction of 220 kV Underground Cable System



Construction of Substation "Idliani 500"

Supply and Installation of AT 3-2 Autotransformers in Substation "Gardabani-500"

- In September 2022, Bemoni delivered 4 single-phase 133MVA autotransformers to the substation "Gardabani-500“, with accompanying services.

- It is worth noting that during the progress of the project, Bemoni became the Georgian representative of the transformer manufacturing company ATEF.

Construction of "Kasleti 1" Hydroelectric Power Plant

- Bemoni is carrying out construction works of the 7.1 MW Kasleti 1 hydroelectric power plant on the Kasleti River.

- It is also important to note that within the framework of the mentioned project, Bemoni became the first company to receive an EBRD grant for the leasing of energy-efficient equipment (Brand new, high-quality "CATERPILAR" excavator).

Construction of 220 kV Underground Cable System

- Bemoni is the **first company in Georgia** that is carrying out high-voltage underground cable installation works.

- As part of the project, which started in March 2023, a certain section of the 220kV overhead power lines "Didube-3" and "Didube-4" will be replaced by an underground power cable system.

Construction of Substation "Idliani 500"

- In August 2023, the partnership Bemoni-Yeo and Georgian State Electrosystem signed a contract for 38.8-million-dollar budget project, within the framework of which a 500 kV substation “Idliani 500” will be built.

- "Idliani 500" will be the **first closed substation of this size in Georgia**, equipped with new technologies, such as Gas Insulated Switchgear (GIS).

- Bemoni is actively involved in the country's energy development process
- Establishes partnerships with leading institutions in the field and is a member of leading business associations.

Management

One of Bemoni's main priorities is work safety and environmental protection.

- Bemoni actively continues to contribute to the energy development of Georgia.

- Construction projects for transmission lines, wind, solar, and hydroelectric plants are currently being developed.

- The above-mentioned works will be carried out in 2024-2027 and the total value will exceed $100 million.

According to the ancient Georgian dictionary, the word "Bemoni" means Work which is executed at the highest Quality.

This is exactly what our company stands for!

ᲐᲕᲐᲛᲔᲜᲔᲑᲗ!
